BELLEVILLE, SATURDAY, JULY 6.

City and Vicinity.

MONDAY AT THE STATION.—The Oddfellows' band will play at the Grand Trunk Railway Station on Monday evening.

LAYING OUT.—The City of Belleville will be laid out until Tuesday, in order that the printing and fitting up may be completed.

The new steamer "City of Belleville" is splendidly adapted for Moonlight Excursions. Go to the one next Monday evening.

THE PHOTOGRAPH.—Mr. Edson's remarkable invention was again exhibited last night and will be shown to-night for the last time.

New music by the Oddfellows' Band at their excursion next Wednesday evening, per "City of Belleville."

INACQUANTING OF BELLEVILLE AS A CITY.—A special session connected with the event will be presided in at the Church to-morrow evening by the Incumbent.

CITY COUNCIL.—A regular meeting of the City Council will be held on Monday night, when the Assessors will be appointed and other important business transacted.

THE CELEBRATION.—The Pictorial Gazette says of our Dominion Day celebration: "It was a proud day for Belleville, and her citizens have a right to feel jubilant over it."

ODDFELLOWS' BAND.—Moonlight Excursion.—"City of Belleville"—Wednesday evening. Tickets 25c, 40c, 50c.

For the aged, when it refreshes and soothes, RANDY'S JAMAICA GINGER.

THE FIFTIETH.—A considerable degree of improvement is apparent in this battalion since the annual drill was commenced. The drill will be concluded during the coming week.

MOONLIGHT EXCURSION.—A pleasant trip, the proceeds of which will be devoted to the aid of John Chubb, Westminister, will be given on Thursday next, 11th inst. For particulars see the advertisement which appears in another column.

A SKEWAL.—The Band of the Oddfellows' serenaded Mr. and Mrs. John Bell at their residence last evening, prior to their departure for Wellington. The music was delightful and thoroughly appreciated. Mr. Bell will get them to partake of refreshments before they left.

ENCOUNTER OUR EPISODE B. O. F. Band at their Moonlight Excursion on Wednesday evening.

THE PIANOS GIVE.—The second number of this monthly fair was inaugurated. Its tone on Church matters is very satisfactory, and it ought to receive the support of all churchmen opposed to ritualism. Specimen copies of the *Guide* can be had at Messrs. Harrington and Overall's book store for 2 cents each.

WELL PLEASED.—At the conclusion of its report of the Alert & Napanee game of lacrosse, played here on Dominion Day, the *Beaver* says: "The Napanee boys are highly pleased with the treatment they received, and all their expenses except their railway fares have been paid. A splendid dinner and supper were also furnished them. They could not have been treated more courteously and kindly."

The Oddfellows' Band are deserving of large patronage at their Moonlight Excursion.

THE TWENTIETH.—The coming anniversary of the battle of the Boyne is to be celebrated in Picton with great eclat. The Orange Young Brigade and True Blue Band of this city will have an excursion thither, and the Napanee brethren have chartered the City of Belleville for an excursion to Picton on that day. The members of L. O. L. No. 777 will meet this evening to determine upon their course.

WEEKLY CHURCH.—Although it was settled upon three weeks ago that the yacht of the Bay of Quinte Yacht Club's fleet should take a cruise each Friday afternoon, yet every one was so busy at that time preparing for the Dominion Day demonstration that it was not until yesterday afternoon that the first cruise took place. Only three of the yacht took part in it, namely the *Melrop*, *Katie Gray* and *Mohel*, the latter being the first to leave with a large party on board. The wind at the start was quite light, but came out at north-east in puffs of considerable strength, and after a run down into Big Bay of perhaps two miles beyond Massena Point the cruises were faced by a head wind. The latter was a short time. The wind at the meantime had hauled completely around, coming out at south-west and being milder. This proved itself working up to Belleville, being somewhat shortly after six o'clock, after a beautiful sail. The object of these week-end cruises is to give the members of the club an evening once a week, and every

THE EASTERN QUESTION.

MIDNIGHT DESPATCHES.

LONDON, July 6.—A correspondent has his supposition as to the probable settlement of the Eastern question by Russia's receiving Plevna on condition of never fortifying it under any pretext, on Russia's utterance at Tuesday's interview, and believes that if the question is not settled privately but is left for formal settlement, Bismarck will resist to Russia's part, and declare that while he should support any compromise, he cannot but consider as binding, the signature of Turkey and England to the San Stefano treaty and the Anglo-Russian agreement respectively.

The English press unanimously, even including the *Daily News*, objects to the cession of Bistum. The Conservative organs are very dissatisfied with the results of the Congress, and they all regret the danger of rupture as obviated. The Times regards the statement of Sir Stafford Northcote in the House of Commons last night, that he was led to hope in ten days or so might the negotiators at Berlin would be far enough advanced to permit him to submit the supplementary estimate, and shortly afterwards make a statement to the House, as a clear indication of his belief that the Government is confident of the attainment of a pacific settlement in Berlin within the next few days.

To give quickness to the negotiations, the Congress invites the Porte to come to an understanding with Greece for the rectification of her frontier, and it is again said that the line should be from the valley of Salambria on the Aegean Sea, to the mouth of the Kalamas river opposite Corinthus. In the event of difficulties arising in the negotiations, the Powers are ready to render their good offices as mediators.

Accounts differ somewhat as to the extent of the rectification of the Greek frontier, suggested by the Congress. It is understood the line includes Larissa. A Berlin despatch says it is certain the Powers, by offering mediation, mean that the invitation shall not remain a dead letter. Italy and France warmly approved the Greek claims. Bismarck admitted he had with difficulty been able to accept even that moderate proposal, as the precise boundary indicated therein seemed to limit the sovereignty of the Porte. He was unable to accede to any demands amounting to a *tabula rasa* of Turkey; and thought not being in a chronic state of anarchy like Bosnia. The Greeks are profoundly disappointed at the decision of Congress. Turkey had previously declared she would go to war with Greece rather than cede the two provinces.

The inhabitants of Batoum have again telegraphed to Minister Laskar asking for the restoration of Batoum, and declaring they have resolved to host the British flag and open fire on the Russians on July 12th.

The sale of the newspaper the *Avras* in the world is the most prohibited, in consequence of an unusually strong article against England on the Batoum question.

WOODSTOCK CHEESE MARKET.  
WOODSTOCK, June 28.—The cheese market, to-day, was well attended with buyers and with railway and steamboat officials, looking after freight. Offers on the Board were limited, on account of many sales made since the last market day. Several factories sold at last market prices, while others were not reported. To-day 1,213 boxes were registered on the Board, mostly first half of June make, most all which sold at from 7c to 10c.

INGERSOLL CHEESE MARKET.  
INGERSOLL, July 2.—Seventeen factories received 5,815 boxes. The cheese market did well. We hear of one factory selling at 7c, and one at 8c.

The Lonet of the Flock

REMARKS BY A. KIDDER

"He will come to me," said the mother

of her poor little, feeble child.

"With his face like a snow white bird,

And a smile which was like a star.

"Of the birds that God has given to

man, and the love of that soft-voiced mother

Full like the clustering doves."

"And she gave him the tenderest nursing,

And cradled him in her arms."

"And when he was a little more than a year

lost a brother from the north forest.

"And the little face grew fuller,

And the little feet grew stronger."

"And the little hands grew stronger,

And the little voice grew stronger."

"And the little heart grew stronger,

And the little soul grew stronger."

"And the little body grew stronger,

And the little spirit grew stronger."

"And the little life grew stronger,

And the little love grew stronger."

"And the little hope grew stronger,

And the little faith grew stronger."

"And the little charity grew stronger,

And the little grace grew stronger."

"And the little glory grew stronger,

And the little kingdom grew stronger."

"And the little heaven grew stronger,

And the little earth grew stronger."

"And the little sun grew stronger,

And the little moon grew stronger."

"And the little stars grew stronger,

And the little world grew stronger."

"And the little universe grew stronger,

And the little God grew stronger."

"And the little Jesus grew stronger,

And the little Holy Spirit grew stronger."

"And the little Church grew stronger,

And the little Kingdom of God grew stronger."

"And the little Heaven grew stronger,

And the little Earth grew stronger."

"And the little Sun grew stronger,

And the little Moon grew stronger."

"And the little Stars grew stronger,

And the little World grew stronger."

"And the little Universe grew stronger,

And the little God grew stronger."

"And the little Jesus grew stronger,

And the little Holy Spirit grew stronger."

"And the little Church grew stronger,

And the little Kingdom of God grew stronger."

"And the little Heaven grew stronger,

And the little Earth grew stronger."

"And the little Sun grew stronger,

And the little Moon grew stronger."

"And the little Stars grew stronger,

And the little World grew stronger."

"And the little Universe grew stronger,

And the little God grew stronger."

"And the little Jesus grew stronger,

And the little Holy Spirit grew stronger."

"And the little Church grew stronger,

And the little Kingdom of God grew stronger."

"And the little Heaven grew stronger,

## Daily Intelligence.

BELLEVILLE, MONDAY, JULY 8.

## City and Vicinity.

City Council.—Regular meeting this evening.

Police Court.—No business this morning.

Encourage our splendid B. O. P. Band at their Monthly Excursion on Wednesday evening.

Tell Celia.—Mr. Anna Wallbridge, of Amesbury, exhibited some corn this morning, which measured nearly seven feet in length.

The Celia.—No prisoners were arrested during Saturday or Sunday night, and one trap landed in the cells within the last forty-eight hours.

Tell Timothy.—Mr. Owen Weiss, of Thurlow, exhibited some timothy on Saturday, which measured five feet ten inches and a half in height. This gives some idea of the extraordinary growth this season.

The new steamer "City of Belleville" is splendidly adapted for Moonlight Excursion. Go to the depot Wednesday evening.

Railway Guide.—Messrs Chisholm's International Railway and Steam Navigation Guide for July has been received. Published by C. R. Chisholm & Bros., Montreal, and for sale at all railway stations and on the steamboats.

Police Magistrate.—The Ontario Gazette of the 6th inst., contains the following appointment: "Robert Addison, Norman, of the Town of Pictou, Esquire, to be Police Magistrate, in and for the County of Prince Edward under the provisions of chap. 4, 41 Vic."

Lock Boxes.—A number of these convenient articles have been introduced into the Post Office. For those whose mail is not large enough to require a drawer, they are very handy, as the box can be locked into it and its contents taken out at any time.

Personal.—Dr. Palmer, Principal of the Institution for the Deaf and Dumb, left by the noon train today for a tour of the Maritime Provinces, and Mr. H. Corby, jr., will leave by the midnight train on a similar trip. These many friends wish them a pleasant trip.

New music by the Oddfellows' Band at their concert on Wednesday evening, per "City of Belleville."

Arrivals.—The yacht *Albatross*, A. and W. Adams arrived in company on Saturday night, the latter proceeding to Trenton. The *Idler*, of Brighton, which preceded them a few hours, left for home yesterday morning, and the *Surprise* passed up on her way to Trenton yesterday afternoon.

New Hall.—The Mill Point *Excursion* says: "The Orange Young Men and True Blue Lads have about ready their new Hall in Douglass' park block on Main Street. It will be a very neat hall, and we trust they may prosper and enjoy themselves in their new quarters. A great number of the ladies in the hall are not procuring respectable and comfortable rooms. We are glad to see L. O. L. No. 1337, taking the lead in this particular."

Oddfellows' Band.—Moonlight Excursion. "City of Belleville" "Wednesday evening, Tickets 25c, 40c, 60c."

Building Operations.—Although less brisk than during the years of prosperity, there is still a good deal of building being done in the city this season, and a number of handsome residences are in course of erection. To those who are possessed of, or can command the needed capital, no more favorable opportunity could be offered, as it is cheaper than ever before and wages are correspondingly low.

Arrival on the Lakes.—The *Ontario* published of the 5th publishes a statement as to the steamer *Hudson* losing her way on the lake on the night of the 4th.

Martha Hart, an Oswego woman, who has sailed on the lakes as cook for ten or twelve years, and who was a passenger on the steamer on the night in question, states that at 12 o'clock midnight the light of a propeller was seen from the *Hudson*, and that she mistook it for the *Oswego* light, and followed down until below the Gallies Islands, about four miles from shore. The night was clear, and the propeller was seen from the boat at this point until morning.

How to Treat Burns.—Dr. Walcott of Boston, author of the alkaline treatment for burns, recently said in an essay read before a medical society: "Apply to the burned surface a bicarbonate of soda, if it is wet, immerse in ice powder; but if it is dry, use a paste of bicarbonate of soda and water, and apply to the burn surface. The bicarbonate of soda will break down the crust of coagulated blood, and from that point, applied hot, iron, and steam. Always disperse the burned surface with a fine stream of water from the hot water, if possible, as otherwise a scalding pain may be felt, due to the weight of the blood vessel from the weight of the coagulated blood."

LOST LOVE.

The heart of the simplest woman

is a mystery even to herself, and she

often finds that she has been deceived

by the one she has loved most dearly.

We are not for the love which we have it

we know not how to love it, and we

often find that we have been deceived

## Daily Intelligencer.

BELLEVILLE, MONDAY, JULY 15.

## City and Vicinity.

**BECKWITH REVISIT.**—The Brockville Yacht Club's annual regatta will be held on the 14th and 15th of next month, when over \$200 will be given in prizes.

**DR. BULLER, Quill and Arrive to the Montreal General Hospital, will be at the Deaf House, Belleville, on Monday, July 22nd.**

A safe and faithful travelling companion, SANDER'S JAMAICA GINGER.

**POLICE.**—The police had a busy night on Saturday, when no less than five prisoners were arrested for being drunk and disorderly on the streets. For centre, all was quiet yesterday, no arrests being made.

**CHANGE OF TIME.**—It will be seen by reference to the advertisement of the steamer City of Belleville, that the time of leaving Belleville on return trip, has been changed from 4 o'clock to 3 p.m.

**FIFTEENTH BATTALION.**—This battalion was inspected this afternoon. The officers of the battalion are to entertain the inspecting officers to dinner at the Deaf House this evening.

**THE ASSASSIN.**—The assassins—Messrs. Rutherford, Northcott and Harold—commented this morning the work of the city for 1878. Their labors are to be completed on or before the 30th of September.

**RETRIAL.**—The Christian Advocate says: "The pastor of Shannonville, Rev. A. Martin, and Rev. E. W. Hall, Bay Quinte Conference Evangelist, have been holding a revival at Shannonville, Ont. As a result, fifty persons have been enrolled as probationers."

**ACCIDENT.**—While a boy named Chambers, employed in Lacey's scull mill, was engaged in shifting a belt this morning, one of his arms got caught between the belt and the pulley and was cut completely off, a little above the wrist. Drs. Burdett and Dorland were called in.

**THE EXCURSION.**—The Episcopal Methodist Sabbath School of this city will on Wednesday next (July 17th), take their annual excursion to Hillside Grove, Red, nerville, per steamer City of Belleville. The boat leaves Belleville at 9 sharp for Trenton, thence to the grove, where every arrangement will be returned completed for a pleasant picnic, accompanied by same route. Tickets 30c., children 10c.

**HARVESTING.**—Farmers are now busily engaged in harvesting their hay, barley and corn, which have ripened almost concurrently. The hay is a better crop generally than last year, though injured by frost in the spring; barley is an immense crop, and of prime quality, though some is laid by the frost, which the yield of rye will be larger than ever known. Other crops now maturing promise an equally abundant yield.

**SMALL.**—There is a lavish liberality in the act of a Hamilton lady who lost \$430, and offered a liberal reward for its discovery. When a poor but honest woman handed it back, she was told, "It is yours, take it when it would be giving anything at all to her. A reporter on the Times, however, succeeded, after lecturing for fifteen minutes, from the text, "The Lord loveth a cheerful giver," in inducing her to hand over \$10.

**IMPURE WATER.**—As many of the wells in this city are of doubtful purity, and hence very likely to infect disease in persons using them, it would be well if everybody would submit their drinking water to the following simple test, which is by a high authority to indicate to a certainty the presence of dangerous organic matter: Place a quantity of water in a clean, glass-stoppered bottle and add a few grains of pure sugar and expose to the light in the window of a warm room. If the water becomes turbid even after exposure for a week reject it. If it remains clear it is safe.

**NEWSPAPERS AS A POWER.**—Cardinal Manning, in a speech at the newspaper Press Fund dinner, the Marquis of Salisbury in the chair, said that the prestige of England has lately been raised to its dignity. A newspaper of a great moral and political force in France had in one single expression given utterance to the fact affirming that the voices which proceeded from England, Europe against a monk's continuance of itself. (Cheers.) He said this without regard to Conservatives or Liberals, but merely as an Englishman who desired to see the country and the commonwealth of nations once more restored to peace, led to place with the only guarantee that could restore or preserve it, viz., international law and international right. What had given to England its greatest glory among the nations was the fact that it was the only nation which, springing from the council of Kings, that had through an unbroken tradition of a thousand years, developed itself into the greatest and grandest Legislature of the world, and which had also

shaken from its spreading branches the life-giving aura of the old English oak that had reproduced themselves in the Dominion of Canada, in Australia, and in the United States.

**AGRICULTURE.**—The scholar David Anderson was around this morning on the west side of the island, near its southern end.

**DOGS.**—The number of dogs registered up to date is one hundred and seventeen. There is an increase of the registration at the same date last year.

**INTERIOR SERVICES.**—In the case of Wm. J. Hinde, tried on Friday, a sentence was pronounced this morning, the prisoner being sent to jail for three months.

**COMMERCIAL WORK.**—This morning work was commenced in the Messrs. Baker & Co's saw mill, on the opposite shore of the lake. Employment will thus be furnished to a number of men who have been idle for a length of time.

**EXCURSIONS.**—The moonlight excursion on Saturday night of the steamer City of Belleville was quite successful. "There were a large number of excursionists from Trenton, and a great number joined the excursion here. The night was a delightful one, and all went merrily and satisfactorily. The Odellville Boat was in attendance and contributed greatly to the pleasure of the trip. The members of the Irish Catholic Benevolent Union and their friends, the whole forming a very numerous party, took passage per the steamer this morning for St. John's Point, whither they went to hold their annual picnic. The locale of the excursion being a very pleasant place, and the weather highly favorable, no doubt the day has been pleasantly spent.

**THE AMERICAN AGRICULTURIST.**—A timely friend is the American Agriculturist for July 1st; its varied matter is as interesting as the most recent paper, as is less by any means the little about work in field, garden, and orchard, are useful to the veteran as well as to young farmers and amateurs. The "Buck" is a regular knowledge book, packed with facts and suggestions for every farmer. It is a regular knowledge book, packed with facts and suggestions for every farmer. ## THE EASTERN QUESTION.

## MIDNIGHT DESPATCHES.

**LONDON, July 14.**—The Berlin Congress held its last sitting on Saturday, when the final treaty of peace in future to be signed by the plenipotentiaries. The treaty consists of fifteen articles, twelve of which, according to the plan followed by the Treaty, relate to Bulgaria; nine of the new province of Eastern Roumelia; one to the Russian occupation, which is fixed at nine months from the date of signature; one to the Austrian occupation of Bosnia and the Herzegovina; seven to Montenegro; one to Servia; one to Rumania and the Danube; two to Greece and Crete; and one to the question of religious equality in the Ottoman dominions. One article remains to be accounted for, and it will be noticed that by this arrangement the motion is made of either the Dardanelles or Armenia. At Friday's sitting of the Congress the British representative, Lord Salisbury, declared his inability to accede to any proposal (interfering with the immediate independence of the British Parliament of papers relative to the Eastern settlement) the motion was thrown out. The proceedings of the Congress were concluded on Saturday night, when a state banquet given by the Crown Prince, at which all the European representatives, with the exception of Prince Gortschakoff and Earl Beaconsfield were present. It is understood that the English and Russian diplomats have come to an agreement upon a basis for an Anglo-Russian understanding, and Austria is said to be negotiating an arrangement with Serbia and Rumania, and a Turkish Convention, with a view to the maintenance of the integrity of European Turkey.

The Roumanian Government has decided to accept the Dardanelles in exchange for Bessarabia, and to accept the decision of the Congress relative to the Jews.

The British Government is suggested to be satisfied with the arrangement of the military and administrative government of Cyprus. Railways are to be introduced, and a railway cable laid to Alexandria, thus securing direct communication with England and the East. The construction of a railway valley railway is on foot, with the Duke of Sutherland at its head.

Earl Beaconsfield, expected to reach London on Tuesday afternoon. A peculiar demonstration is expected at Charing Cross station. A limited number of tickets is issued for admission to the Royal platform, but so large a crowd is anticipated, that the police line will extend from the station to Downing Street. The only invitation Beaconsfield has accepted in honor of his return, is to a dinner tendered by the Carlton Club. The Town Council of Dover will meet the Earl on his arrival at that port, and present an address of congratulation.

## Daily Intelligence.

BELLEVILLE, WEDNESDAY, JULY 17.

## City and Vicinity.

Arrived.—The yacht Kithley broke

her topmast whilst out sailing yesterday

afternoon.

Customs Sale.—The auction sale of un-

claimed goods will take place at the Custom

House to-morrow, as per advertisement.

Returned.—Mr. John Pantier, of the

firm of Sheering &amp; Pantier, who has been

on a visit to his former home in England,

has returned safe and well, and expresses

his pleasure in his trip.

Dr. Bullen, Oculist and Aurist, to the

Montreal General Hospital, will be at the

Dufresne House, Belleville, on Monday, July

22nd.

Street Work.—New sidewalks are

being laid in several parts of the city where

they are most needed. Tenders for the

erection of a quantity of street work are

asked for. Particulars will be found in the

advertisement.

Deaths of a Veteran.—Mr. James C.

Rush, one of the oldest residents of Amel-

iasburg, died lately, aged 83 years and 6

months. Mr. Rush, who was a veteran of

the war of 1812-14, leaves a large number

of descendants. He was a man who was

very much respected.

Excursions.—Two excursions took place

to-day, namely that of the M. E. Sabbath

School to the Grove near Redensville, and

that of Mr. W. Flint Jones' Bible Class of

the Bridge Street Sabbath School, to King-

ston. All excursions are well patronized.

Late, people being being glad of a chance

to escape the dust and heat of the city,

even for a single day.

The Civic Holiday.—Arrangements are

being made by the Bay of Quinte Yacht

Club and the St. Andrew's and St. George's

Societies for the holding of an aquatic

carnival picnic at Massena Point on Wednes-

day. The probability is that the

programme will be more varied and in-

teresting than that of any picnic ever held

on the favorite point before. Particulars

will be given in a few days.

Personal.—Lieut.-Col. R. C. Hulme, of

the 10th battalion, left town to-day on an

excursion to the celebrated White

Springs of Virginia. The waters

of these springs are celebrated as a cure for

rheumatism, with which Col. Hulme has

been badly afflicted of late, and we hope

that he will find their virtues all that has

been stated and return freed from the tor-

menting pains of rheumatism.

Max Drowned.—Shortly after 12 o'clock

yesterday, a colored man named James

Galloway was floating in the year near the

railroad bridge, which he took to be a log

of driftwood, but which subsequently turn-

ed out to be the carcass of a dead dog

which he had been carrying. He was

found by a fisherman, who took him to the

shore and there he died. The fisherman

who found the body was named John

Farley and he was a resident of the

vicinity of the bridge. The body was

found in the water and was taken to the

shore and there it was found. The

## AFTERNOON DISPATCHES.

LONDON, July 17.—The sale will be com-

menced on the Paris Bourse to-day of a new

French loan in the form of a three per cent

bond, amounting to 100,000,000 francs. The

loan is to be used for the purpose of

the redemption of the 5 per cent. rentes de-

pressed the loan. The fall in consols is due

to the fact that capitalists are selling out to

make other use of their money. In conse-

quence of the removal of financial and busi-

ness activity, all classes of Turkish stocks

are strong and advancing.

The Italian agitation in Italy against Aus-

trian gains at Berlin and in favor of the ac-

quisition of Trentino or Trieste is becoming

prominent that the Government is apprehen-

sive of the effect on Austrian susceptibilities.

A manifesto is published in the *Diritto*, the

ministerial journal, declaring that the Anglo-

Turkish convention "as a matter of anxiety

and opportunity will not be wanting to set-

tle quickly and at length the grounds of our

dispute and resignation."

It is an attempt to

turn public attention from the dangerous sub-

ject of Austria's success to that of the English

acquisition of Cyprus, the discussion of which

is not likely to cause trouble, especially as the

manifesto declares that Italy could not at

Berlin and cannot elsewhere, attempt to hin-

der British action, which all the other Powers

acquiesce in.

A Commission has been appointed by the

Ambassadors at Constantinople, consisting of

the English and French Consuls General, the

Austrian minister, the Russian, the German,

Russian Secretary, and a Turkish Commis-

sioner will leave on Thursday in a Turkish

steamer to investigate the alleged Russian and

Bulgarian measures in the Rhodope district.

The value of house property at Beyruth

and other Syrian places has risen greatly in

## Daily Intelligencer.

BELLEVILLE, THURSDAY, JULY 18.

## City and Vicinity.

**RAILROAD MAIL.**—The mail by the latest arrived steamer was distributed here this morning.

**CRICKET.**—In a match played yesterday afternoon between the married and single members of the Belleville Cricket Club, the former came out victorious by a considerable majority of runs.

**WEEKLY CRUISE.**—The next weekly cruise of the Bay of Quinte Yacht Club will take place to-morrow afternoon. The invitation to members is general, and ought to be largely taken advantage of by those who appreciate a pleasant sail.

**EXAMINATION.**—Another excursion is to take place on the steamer *Algonquin* on Saturday night. The fare has been placed at the same rate as that for last week's trip, which was so successful, and the *Algonquin* will again be in attendance. See advertisement.

**CHALLENGE.**—Hon. William Macdougall challenges Hon. Richard John Cartwright to a convenient day for the public discussion in Napanee, as that the merits of the present and the late administration may be fairly submitted to the electors of Lennox. Each gentleman is to have equal time to speak, if the challenge is accepted.

**THE "KINCARDINE."**—It will be seen by advertisement elsewhere in to-day's issue, that Mr. John L. Mills has been appointed agent for this steamer. Mr. Mills brings experience and excellent business qualifications to the discharge of his duties, and we have no doubt he will represent the interests of the boat with courtesy and efficiency.

**GIANT GOURMET.**—Mr. Donald McLean, who is known as an amateur grower of superior fruit, brings us samples of giant watermelons, 32 by 10 inches, and 24 by 10 inches, which he has raised on Myers' Hill. The fruit is not only remarkable in point of size, but also of excellent flavor. We have to thank Mr. McLean for a basket of this sort of fruit.

**THE HEATED TERM.**—Professor Dawson, Meteorological Observer, informs us that from one till two o'clock p.m., yesterday the thermometer in the shade stood steadily at 95. This is the hottest record this year, and is equal to the temperature at St. Louis, when so many died of sunstroke the other day. It is necessary to take special precautions against the heat just now, the weather being slightly "muggy" as well as intensely hot.

**CRICKETERS TROOP.**—The Onondaga cricket club of Syracuse are to make a week's trip through Canada, on which they will meet the principal clubs. The Onondaga will leave Syracuse on Saturday, August 10th, playing at Cobourg on Monday, August 12th; at Port Hope, Tuesday, August 13th; at Belleville, Wednesday, August 14th; at Ottawa, Friday, August 16th, and returning home on Saturday, August 17th.

**RAILWAY MATTERS.**—During the past two days Messrs. E. O. Dickson and Alex. Manning, of Toronto, together with Mr. W. O. Dunn, of this city, have been on a tour of inspection of the Grand Trunk and Northern Ontario Railways. The Toronto gentlemen express themselves highly pleased with the country through which the roads run, and we believe it is not improbable that Mr. Manning will, in connection with other gentlemen, undertake the completion of both roads. In case this arrangement is perfected, work will be commenced at an early date.

**SUNDAY SCHOOL PARLIAMENT.**—The annual meeting of the Methodist Episcopal Church has arranged with the Ontario and Northern Ontario Railways. The Toronto gentlemen express themselves highly pleased with the country through which the roads run, and we believe it is not improbable that Mr. Manning will, in connection with other gentlemen, undertake the completion of both roads. In case this arrangement is perfected, work will be commenced at an early date.

**INDICENT EXPOSURE.**—As regularly as the season comes around, we are called upon to urge the police to cause the youths who deposit themselves at the corners of the city at all hours of the day, in defiance, not only of the by-laws of the city, but of common decency as well, to seek less public places for basking purposes. This year the Grand Junction dock, Flint's wharf, the beach, and the river, the island, and even the wharves near the boat houses have been appropriated as basking places. Hence, now or never is the time for the law, and when ladies go out boating at high tide, they must pass through a crowd of nude young men and boys, whose language is shocking, and whose many acts of indecency are apparently willful and intended. We call upon the police to enforce the by-law and stop this disgraceful state of affairs, if necessary let the Council set some one

place apart for the bathers, but they must not be allowed to usurp the whole water frontage of the city, including the river as well as the lake.

**SUNSTROKE.**—The first case of sunstroke which we have heard of occurring in or about Belleville this year, took place this morning, the victim being Mr. Connor, a carpenter, who lives in the southern part of the city. He is suffering from the heat brought yesterday, he was very much exhausted this morning, but he was long accustomed to the heat. He was taken to his home and is reported to be in a dangerous condition.

**YACHTING.**—The *Oswego Palladium* says: "An excellent N. S. Stone yesterday bought the slooped open yacht *Joseph E. Sprague*, built in Illinois and brought here by an Ithaca party about two weeks ago on a trip down the river. On the 4th of July she won second money in the Clayton regatta. The dimensions of the *Sprague* are 35 ft. keel, 13 ft. 4 in. beam, 9 ft. 9 in. deep; tonnage a little less than 21 tons. Sail, 30 ft. hoist, 30 ft. boom; 11 ft. 20 ft. hoist, 22 ft. 6 in. foot of jib. It is understood that Mr. Stone paid \$250 for the *Sprague*, and she is considered a valuable addition to the Oswego fleet."

**THE GILDERMERE COP.**—The Kingston *Way* says:—"The beautiful silver cop, offered by Mr. C. F. Gildermeire for competition among the Lacrosse Clubs, is now on exhibition at the store of Messrs. Gage Bros., Princess Street. It is an elegant piece of plated goods, with two deers heads of oxidized metal on the sides, a suitable emblem, and emblem of the Gildermeire Club. It is to be played for by any Lacrosse Club in the Belleville and Brockville, and several prizes may be expected to be won by the victors. It is probable that one, if not both, of the Belleville clubs will win it, and will then be the victors, Napanee and Kingston Clubs."

## Entrance Examination to Fourth Grade.

One hundred and thirty-two Third Book pupils from the City School passed a written examination in arithmetic, spelling, grammar, geography and Canadian history, for admission to the fourth grade. Twenty-one failed to reach the standard required for admission to the fourth grade. The examination was held on Monday, Sept. 10th.

**THE HEATED TERM.**—Professor Dawson, Meteorological Observer, informs us that from one till two o'clock p.m., yesterday the thermometer in the shade stood steadily at 95. This is the hottest record this year, and is equal to the temperature at St. Louis, when so many died of sunstroke the other day. It is necessary to take special precautions against the heat just now, the weather being slightly "muggy" as well as intensely hot.

**CRICKETERS TROOP.**—The Onondaga cricket club of Syracuse are to make a week's trip through Canada, on which they will meet the principal clubs. The Onondaga will leave Syracuse on Saturday, August 10th, playing at Cobourg on Monday, August 12th; at Port Hope, Tuesday, August 13th; at Belleville, Wednesday, August 14th; at Ottawa, Friday, August 16th, and returning home on Saturday, August 17th.

## AMERICAN DISPATCHES.

**DEATHS.** July 18th.—The weather has been extremely hot in this region for the past ten days, the mercury ranging from 90 to 100 in the shade. Ten persons were sunstruck in this city during the last ten days, only one fatally. No fatal cases are reported from the neighboring towns. The damage to the crops by the hot weather is very slight, principally in causing the small grains to ripen too late. Late wheat is slightly damaged by rust and chaff, but the crops as a whole are better than during the past ten days.

**STOCK CRY.** July 18.—For the past few days the hay has been intense, almost causing a suspension of business. Very few cases of prostration are reported. The crops in this vicinity are benefited rather than injured by the hot weather. Wheat looks better than the hot weather. Wheat looks better than the hot weather. Wheat looks better than the hot weather.

**DEATHS.** July 18.—Six fatal cases of sunstroke are reported here, and several minor cases. The heat yesterday afternoon still continued, which slightly relieved the crops, though the thermometer is still in the nineties, and the outlook favors another intensely hot day to-day. No certain reports of the crops, save that grain has been badly beaten down by storms and damp, and the heat following has caused considerable rust. Corn is doing well, as far as the crops are concerned.

**POISON.** July 18.—The heat during the last seven days has been well tolerated. Seven cases of fatal sunstroke, and twenty cases of prostration, are reported. ## AFTERNOON DISPATCHES.

**LONDON.** July 18.—The *Times* Constant telegraph reports that he was stopped of Gallipoli by a signal from the English fleet directing him to take on board a Lieutenant sent by the Admiral to report the following: Two days ago a small boat was captured on the Russian line and the crew on landing were immediately made prisoners. The Lieutenant, midshipman and 10 men. The boat was sent to look for the ship, but upon approaching the place this boat was fired upon by the Russian line and the crew on landing were immediately made prisoners.

**LONDON.** July 18.—Earl Beaconsfield will visit the Queen on Saturday. He was not well enough to go to Windsor yesterday, but the Marquis of Salisbury went.

**AN AGRICULTURAL LABORER** named Watkins, his wife and three children, have been murdered with revolting accessories at Langley, near Newport, Wales. A Spanish sailor on a tramp was arrested at Newport, believed to be the murderer. Object, plunder.

**PANAMA.** July 18.—The *La Solida* has been found four hundred dollars at the suit of the Prince Imperial for the publication of a statement respecting Napoleon the 2nd civil war, charged with an appropriation of Crown property. Object, plunder.

## The Cheese Trade.

The Montreal *Star* says:—Although large quantities of cheese in the English and Swiss varieties are now being imported, the cheese trade generally have their shelves well filled with the last of the season's make, and some have even their May cheese on hand. At the low prices which have obtained for the past two months, importers have sold with extreme reluctance, believing that a reaction would shortly set in, and higher values would be realized. But up to late evening no signs of an advance in price were discernible. Although some dealers have very available resources for anticipating that result, chief among which was the fact that owing to bad weather and withered pastures, the milk has been considerably diminished. ## Daily Intelligencer.

Belleville, Saturday, July 20.

The "Tribune" scandal.

The Toronto Telegram, which is indepen-

dent in politics, and has been in the

possess of the body politic, is divided, has

the following about the Government sub-

vention of the Toronto (Catholic-Grit) Tri-

bune. "The party organs are careful never

to let an opportunity for making polit-

ical capital at the expense of an opponent,

and when the opportunity does not offer

they by no means scruple to draw upon

their imagination for a case, or, to take

up to date, to make the country

stagnant with the weary repetition of

the unvarying story they dash up for their

readers. A case, however, has recently

been offered which has been met by the

tribune organs. By some underhand means,

a letter written by Mr. S. C. Wood, Treas-

urer of Ontario, to Rev. Father Stafford,

has found its way into the Victoria Ward,

which Mr. Wood informs the Ward, in the

gentleman that it is absolutely necessary

to bolster up the Toronto Tribune, which

he states has lost and is losing money "ar-

bitrarily and purely in the interest of the

form party." To this end he offers to

contribute for the names of twenty-five per-

sons in North and Ontario, to whom it

would be admissible to send the Tribune,

intimating that if 750 additional copies

of the paper could be circulated, the

Catholic in these districts it would do Mr.

Wood and his Government much good.

For the privilege of getting these copies

into Catholic hands Mr. Wood and his col-

leagues are quite willing to assume the

responsibility of paying the subscription,

and Father Stafford is informed that "we,

in this Government, gave from \$200 to

\$2500" on behalf of the paper, and that

"that a sum was raised by members of the

Ontario Government" for the same pur-

pose. Truly, a pretty state of things.

How will the electors of Ontario swallow

this neat little admission in view of the

long faces made by these same Ministers

for a large additional aid to their salaries?

How will the Protestant element of the

Province view this pretty little plan to

secure the aid of the priests in purchasing

the Catholic vote? Finally, how will the

Catholic themselves regard the principle

of a Government virtually equipping

and conducting a newspaper with the

avowed purpose of placing the

Catholic element under its thumb? A

trial "Party of Purty" a fitting sequel

to the "Big Fish" letter, and the result

of the trial, if that were necessary, to

what has long been regarded as an estab-

lished fact, that the relations between

the party organs and the Government in

power are invariably of the most un-

pleasant character. It will require a great

deal more than the Globe's editorial on

the subject to convince the public that this

affair is only "another matter of news"

as it may and should prove a nest of hornets

to the parties of the Grit party.

The Lindsay Ward returns to the

subject in his last issue, saying in the course

of a lengthy article:—"Since publishing the

letter we have been informed by several

of the 'Big Fish' letter, and I have been

informed that the letter was not the

work of the 'Big Fish' letter, and I have

BELLEVILLE, MONDAY, JULY 22

"Solid Liberal Success."

This is what the London Grit organ denominates the course of events in the Quebec Legislature, which body was prorogued last week. The journal in question holds forth as follows on the subject:

"The success of Mr. Joly in securing his majority through the Quebec Legislature is very remarkable. The Liberal Government, established by the late Premier, had been in power for some time, and had secured a majority in the Province, and it is not until the last of the session that the Liberal Government is defeated, and the Conservative Government is elected."

The same sentiments are expressed by a number of other "Liberal" journals, and the entire press of that political stripe, with a few—very few—honorable exceptions, expressing delight that Mr. Joly has been able to pull through the session, after having sustained a defeat which ought to have caused his resignation, had he been the highly honorable man he was generally supposed to be. Mr. Joly was not the chivalrous gentleman of "Liberal" fame, who, after having succeeded in achieving the "Solid Liberal Success" over which his organs in the Province are crowing by a bold resort to bribery and corruption, which are the favorite means of "Liberal" success, and who, in the Assembly, Mr. Joly did not resign, as so many in the Mother Country have given the popular verdict has been given against them. On the contrary, this high-spirited, chivalrous representative of Gritism in Quebec, on his friends, and at all events he was well aware of, and is responsible for his action—deliberately set about the task of securing a majority. Various means were tried, such as attempting to bully those members of the Legislature supposed to be weak, and flattering those presumed to be susceptible to that influence, whilst offers of bribes were made to those who were believed to be purchasable. For a considerable length of time all these efforts were without avail, but fortune came at last to the assistance of the corrupt politician. Mr. Prior, of Chateaufort, who had been elected in his absence as an opponent of the Government, against the strongest opposition the July party could place in the field, and, for some unknown reason peculiar to himself, set out in his lot with those against whom he had always stood in his political career, and thus if only one member could be coaxed, threatened, or bribed into deserting his party and betraying the trust of his constituents, the coveted majority would be obtained. The needed man was found in the person of Mr. Arthur Turcotte, of Three Rivers, who sold himself "body and bones," for the Speaker's chair. The details of this man's infamy is so unnecessary to repeat, as the sickening subject has been recently very fully ventilated in these columns. Despite the support of this purchased creature, Mr. Joly's Government was defeated on a motion made in condemnation of the dismissal of Mr. De Boerhove and his colleagues, against which Mr. Prior refused to vote; but the "divine" Mr. Prior, who had been hanging on to his office, and succeeded in getting his measures through by a majority of one vote—the purchased vote of the traitor Turcotte.

And this is the state of affairs over which the Grit organ of Ontario is rejoicing and terming it a "Solid Liberal Success." Had Mr. Joly been Liberal success by the people his party in Ontario would have had good cause for congratulation and rejoicing; but the contrary being the case, the Reform press of the Province has fallen very freely indeed in openly and loudly expressing approval of political reality such as we have above described, and the truth of which statement of facts we challenge them to deny. They profess to be the champions of constitutional rights, but that was when their party were in opposition; now, when their party receive advantages by the violation of the constitution, they applied the act, and when prominent men in their organization oppose, and with scarcely an attempt at concealment, purchase a drosser representative of the party, and loudly applaud and call the bargain and sale a "Solid Liberal Success." We tell them these hypocrites who thus turn their backs on their own principles, and give the lie to their past record, that they are "success" will cost them dearly not only in Quebec alone, but in all the other Provinces. Their corrupt practices have been pretty well exposed in this additional proof of the want of hypocrisy of the Grits, good reason why they should not be entrusted with the administration of the great interests of the Dominion.

The true reason for the hubbub of felicitation poured by the Grit journals upon Mr. Joly is plainly stated in the extract made above, namely that his success in re-igniting the Quebec elections in the interest of Mr. Mackenzie's Government. Therefore, as his success in accomplishing this disgraceful transaction, the party in question must be held fully responsible for it.

We would just say in passing that the action which we commend, that the July Government, "stronger at the close than at the opening of the House," is a deliberate falsehood, manufactured for the purpose of inducing votes. Mr. Joly's majority on the last vote of confidence motion was precisely the same as in the early part of the session, namely one—the vote of the Speaker. It is true, however, that during the session, after the Government majority had been purchased, the efforts to seduce other members of the Conservative party from their allegiance to their political leaders were not relaxed. The Lieutenant Governor, who placed Mr. Joly in power was a prominent actor in this disreputable business, but no success was achieved. Mr. Joly's friends, however, with a constancy which does them infinite credit, the gentlemen who were "approached" retained all efforts to win them from their allegiance, and the session closed as it had begun with regard to the numerical strength of parties in the Legislature.

We congratulate the gentlemen in question on their firmness. By corruption, open and avowed, their leaders have been deprived of the administration of affairs, and the will of the people has for the time being been set at naught by one purchase. As, however, it is unquestionable that great frauds and shameless bribery were practiced in order to secure the election of some of the members of the Ministry and sundry of their supporters, against whose return petitions have been lodged, there can be no doubt that by the operation of the law several of these gentlemen will be unseated. Of those seats the Conservative Government will be sufficient to give them a majority, following which will come the return to power of the Conservative party in Quebec, as has already occurred in British Columbia and New Brunswick, and as we feel justified in believing will be the case in the Dominion at large.

## Examination of Public School Teachers.

The annual examination of candidates for the public schools of the city will be held at the Hotel Belleville, on Monday, July 22, at 10 o'clock a.m. The examination will be held in the morning and afternoon. The subjects to be examined in are: English, Arithmetic, Grammar, History, Geography, and Natural Science. The candidates will be examined by a committee of the Board of Education. The results of the examination will be announced on Wednesday, July 24.

## PERSONAL.

Judge Dean, of Lindsay, is in town.

See G. W. Holden's Springfield Trust and Supporter advertisement, in another column of this paper.

When the skin is hot and dry, take SANDER'S JAMAICA GINGER.

MARINE.—The ship *Reine Eide* is discharging coal at the lower dock.

The *Reine Eide* is a small steamer, built in 1875, and is now in the service of the O. & S. Steamer Line.

BATHING.—Boys, beware of a sudden plunge into the water when you are in a heated condition. Many deaths have occurred by drowning during the present hot weather, not because the boys and men did not know how to swim, but because of the great reaction of the blood, which, by resulting in cramp or affecting the heart, deprived them of all power to save themselves. The best time to go in bathing is early in the morning, before the body becomes heated.

THE WEATHER.—The heated term has been broken up as foretold in the "probabilities" of Saturday. Although the sun yesterday shone brightly, the strong north-west wind, which blew in great gusts throughout the day, tempered the much more steady whilst the dust having been laid and the ground cooled by the rain of the early morning, the weather was rendered pleasant. The fall in temperature, which was great, led to a refreshing shower during the day, which was still more pronounced after sunset, and the night was one of the coolest experienced in some weeks.

## A REMEDY FOR CONSUMPTION.

The following remedy is made public by Dr. D. Unger, of Minneapolis, and is said to have been attended with success in many cases. It has been prepared with simplicity and aims to provide a means of curing consumption by the use of cod liver oil, which is the most powerful remedy for this disease. The remedy is made by mixing cod liver oil with a small quantity of sugar, and taking it three times a day, after meals.

Excursion.—The excursion by the steamer *Alfred* on Saturday evening was a grand success. A considerable number of excursionists took passage to Tremont, where a large number of pleasure seekers joined the party on board, and on the boat's arrival at Belleville a still greater number took passage.

THUNDER SHOWER.—A violent thunder storm passed over the city at about 10 o'clock on Sunday morning. Rain fell in torrents for perhaps half an hour, accompanying which was a furious squall from the North-West, and the display of lightning was of the grandest description, the flashes coming in at very brief intervals for about an hour.

SUNDAY SCHOOL PARLIAMENT.—Tremont and Island Park.—The Managing Committee of the Methodist Episcopal Church have arranged with the owners of the steamer *Alexandra* for an excursion to the above beautiful grounds early in August. Will leave here on Saturday morning at 10 o'clock, and arrive there about 5 o'clock. Returning will leave the island at 11 o'clock. Sunday night, arriving at Belleville on Monday morning in time for business. Fare for the round trip one dollar. Particulars in a few days.

BLACKWOOD'S MAGAZINE.—The reprint of the July number of "Blackwood's Magazine" has been received from the Leonard Street Publishing Company, at Barclay Street, New York. Its contents are: John Caldwell; Part IV; Apple, a comedy; Translations from Hain, by Theodore Martin; Gordon Edgerton; Part I; The Englishman; The Two Nones; The South African Question; The Congress.

THE POSTSCRIPT REVIEW.—We have received the Rose-Bellford issue of the *Postscript Review* for June. It opens with an excellent article on "Dread and Duke of Sciences," by G. H. Lewis, and among other interesting papers which it contains are: "Atlantic Forces in Our European Wars," by W. R. Grey; "Political Aspects of Lord Beaconsfield," by James Bryson; and "Haley's Last Days," by Richard Garnett.

NEW OCEAN BOAT.—The *Owengo* Times of the 18th inst. says: "We notice in the harbor today the new built and named boat *William Jeff*, recently built at Rochester for the Post Brothers, of this city, who will put her into the grain carrying trade. She is one of the best boats ever owned on this coast, a large cabin and fitted up with a cabin which will carry any other canal boat cabin we ever saw. The boat is named after Wm. Jeff, Esq., an owner of *Traveller*, one of the largest harbor freighters of Canada."

ST. NICHOLAS FOR ADULTS.—The Midsummer Holiday issue of *St. Nicholas* for adults, a long, funny poem by T. W. Higginson, verified from a story by M. T. Wright, and entitled "King Chameleon." It deals with a curious incident of the Pacific Exhibition of 1887, and is illustrated with a series of caricatures, and several smaller illustrations, by Hopkins. The number is humorous from cover to cover, and has the pleasant flavor of a cartoon both in tone and subject. *St. Nicholas* is a long, funny poem by T. W. Higginson, verified from a story by M. T. CHAPTER VII.

THE RETURN OF THE PRODIGAL.

"You have not found him, then?" cried

Lettice, in despair.

"No."

John narrated his illness, and the

easy way in which he had been duped.

"Patience," he repeated, ending his

narrative. "I am going to the office again.

Perhaps something has turned up there."

"Oh, this weary suspense! I dare not

speak to Mr. Fennell about it. And he

knows that your will is guilty. Oh, he

cannot be—he cannot be!"

"Patience," it was all he could say.

"Halt!" he engaged when he called

at the office. "Would he wait?"

John sat down. It was the outside room,

a sort of great entrance hall, of the ware-

house. There was a large counter, and

which stood the smaller boxes awaiting to

be entered or examined before being sent

away. Clerks were at work on the floor.

Presently, John, getting tired of watching

the top of the business, began to walk

about the place. A strong door with glass

panes opened into an inner room, where

there were fifty or sixty clerks all writing.

John tried to work out a little in

arithmetic, which occurred to him at the

moment. So many offices in the city! So

many thousands of clerks employed! All

the clerks writing, writing without ces-

sation. How much would one man write

in a day? And if all these men were

ways writing, where were the men who are

always reading? And what was done with

those books which they perpetually fill?

And as the generations run on, and En-

gland's prosperity continues, what is to be-

come of all these books? It was a strange

arrangement he made between the

American and the British legislatures to

bridge over the Atlantic by means of the

old office books! Two thousand five hun-

dred miles across—the ocean being

three miles deep, to find the number of

books necessary to make a roadway broad

enough for a railway train. It would take

many, many, but not more, he began to

think, than might be provided by a single

generation of a million clerks, working for

thirty years, six hours a day. He would

have pursued this interesting re-

sult, but on looking through the glass

door, he was struck by a new sight, and

the clerks in the inner room, writing with

their hands, his friend Mr. Kugel, the hero

of his adventures.

Of course he had bargained with much

where else would young Langton make

friends so readily as in a city where

there were so many clerks.

This time he resolved on telling Mr.

Halkett all he suspected. At all costs it

must be ascertained whether the boy was

even if it should lead to a quarrel with

him, on a charge of embezzlement, but that

John thought, could be ascertained.

Mr. Halkett, Mr. Halkett was keeping him

waiting a long time.

He could not help staring through

the window at his companion of last night.

Yes, there was no doubt a man with

fair hair and spectacles, about the middle

height. Kugel sat with his side face only

visible. He was industriously writing

letters in German, with little suspicion

that his money was only a dozen steps

from him, and that the moment of detection

was actually arrived.

For up stairs, with Mr. Halkett, was the

French journalist. His knowledge of

English was limited, but not so limited as

MODERN JAPAN.

BY DAVID WARDENBURG.

The political and social revolution which

created modern Japan, has been as sudden

and complete as a theatrical transformation

scene. A country isolated from all outside

influences, and in which the old customs

and ideas were firmly established, is

suddenly thrown open, and foreign ideas, inven-

tions and notions are welcomed and adopted by

government and people. A masterful dig-

ression, supposed to resemble in its spiri-

tual attributes the Delia Lama of Tibet, is

drawn forth from invisible sources, and ap-

peared in European uniform, and as

the authentic world as a ruling gen-

eral of Japan, while the uprising

representative of military despotism,

retires into peaceful obscurity, and his

office being suddenly extinguished, a

great territorial aristocracy, owning improp-

rietary revenues, and the al-

ligiances of devoted military retainers, de-

ceases its own overthrow, and subdues with-

out a struggle, almost as a matter of

course, the province of Japan, and

for the first time, a monarch, sitting on

the throne, and a people, united by

the bonds of a common language, and

the ties of a common religion, are

presented to the world as a new

power, and a new element in the

history of the world.

Scattered throughout the length and

breadth of Japan are mighty fortifications,

with broad, deep, and earthworks

surrounding the huge granite blocks, tralling in

extent and in artificial strength the elaborate

constructions of the Chinese. Six years ago

these were the strongholds of a

people, and at whose word thousands of

clansmen were prepared literally to sacrifice

their lives. Now these fortifications are

ruined and deserted, and the

people, who were once so proud, are

now in some cases entirely dis-

appeared, and in others they are

scattered throughout the length and

breadth of Japan, and are now

the subjects of a foreign power.

The original number of great di-

visions, which were once so numerous,

is now reduced to a few, and the

people, who were once so proud, are

now in some cases entirely dis-

appeared, and in others they are

scattered throughout the length and

breadth of Japan, and are now

the subjects of a foreign power.

BELLEVILLE, FRIDAY, JULY 26.

### City and Vicinity.

**REMINIS.**—Excursion by the *Albion* to-morrow night.

**BURN FIRM.**—It is reported that fire are raging in the woods in the northern portion of Peterborough County. Considerable damage has resulted.

**ANNOUNCED MEETING.**—The joint committee on the union picnic will hold a meeting at 8 o'clock this evening at the same place as before.

**CRICKET.**—An eleven of the Belleville Cricket Club left for Brighton this morning, to play a game with the Cricket club of that village.

**STOPPERS.**—One effect of the rain to-day was the prevention of the united Sabbath School picnic and of the cruise of the yacht fleet.

**RAIN.**—The very much needed rain came last night, and continued to descend in heavy showers during the greater part of the night and to-day. The effect of this rain upon root crops, pastures and fruit will be most salutary, as the great heat and prolonged drought had worked serious injury in many cases.

**HOW NOT TO DO IT.**—Speaking of boxing the ears of children as a mode of punishment, the *London Lancet* says:—"Medical men alone can be fully aware how fruitful a source of suffering and danger is represented by the box upon the ear. There are, for example, under observation at the present moment two schoolboys who have been the victims of such an assault. Superstitionists ought to have learned long ere this the danger of a mode of personal chastisement that has apparently usurped the place of others which, if more dignified, were not attended with an equal amount of peril."

**LOOK OUT.**—The *Port Hope Times* of this week says:—"We learn by the daily papers that detective Smith, of London, has recently found several merchants throughout the country for selling Paris Green. It is contrary to law for anyone but duly registered druggists to sell this article, and if anyone in these parts, in ignorance of the law bearing on this point, has been selling it, they should stop it at once, for no one knows when a detective might make it his business to pay the place a visit. We suppose the next move will be to prevent the hardware merchants from selling white lead, and just as poisonous as the other, and both are used by painters."

**CANAL BOAT SUNK.**—The *Oswego Times* of Wednesday says:—"On Monday night the tug *Sammy*, Capt. Dobbie, left Napoleon and Picton for Oswego, with a tow of four canal boats loaded with ashes, the *Morning Star*, *Evening Star* and *Living Star* from Napoleon and the *H. R. Frost* from Picton. The last named boat was taken in tow in the rear of the others. The lake was rough and the boats had a pretty lively sea to contend with in the passage across the lake. When about twelve miles off this port yesterday afternoon the tug and the *Proctor* broke and she became unmanageable and began leaking. Shortly afterwards her line broke and she went adrift. A line from the tug was thrown to her and fastened and the tug and boat were towed within less than a mile of the light house. The *Proctor*, meanwhile, was fighting with water both from the leak and from seas that washed over her. She is what is called a quaterdeck boat and her 'house' was broken in. When it became evident that she would sink the line was cut and in a short time she went down."

**LACROSSE.**—We copy from the *Kingston News* the following account of the match played at Kingston on Wednesday between the Alerts of this city and the Napoleon Club:—"A very interesting and well-contested game of lacrosse took place on the Athletics Grounds yesterday afternoon between the Alerts of Belleville and the Napoleon Lacrosse Club. There was a large number of spectators on the ground, and much interest was displayed in the game. The Alerts were—Lawrence, goal; Gillen, point; Sangster, cover point; O. Milne, J. Forin, W. Newbery, defence field; A. Forin, A. Gillen, home base; F. Redick, Evan, Acosta, bench. The Napoleon team were composed of Chianio, Golder, Holmes, Bartlett, Gillif, Landy, Miller, Shoray, Anderson, Smith, Hoyce and Daly. The ball was faced at 3:30 p.m. and the first play was both sides the first game was taken for Napoleon by Golder in 15. The second for Napoleon by Holmes in 40 minutes. At this juncture the superior training and science of the Alerts began to tell, they winning the next two games in 30 minutes and 3 minutes respectively, the ball being put through on each occasion by Minore. When the referee called time for the commencement of the fifth game the Alerts immediately took their place in the field, but the Napoleon men refused to do so. The referee blew, after due notice,

said that as no arrangement had been previously made as to time of stopping the game, it could not stop unless by mutual consent, consequently Mr. Ellcock, the referee, gave Belleville the 40th game and hence the match. The Napoleon men were undoubtedly lagged out, while Belleville appeared good for any length of play. For Napoleon Chianio (Golder) Holmes and Bartlett did good service, while for Belleville the play of Minore, Sangster, Forin and Newbery was excellent. The running and shooting of Golder was much admired. The band of the 47th Battalion played during the afternoon."

**POSTPONED.**—The Lawn Social announced to take place on Saturday ground this evening has been unavoidably postponed until Tuesday night, 30th inst. Despair not, "Jacob's Wall" never can be washed away.

### Railway Excursion and Pic-Nic.

The annual excursion of the Grand Trunk Railway employees of Belleville took place on the 25th inst., and was probably the most successful ever held under the auspices of the Railway people of this city. The place selected for the picnic was a beautiful grove at Port Hope, east of the viaduct, and close to the railway track, and a more delightful and convenient location could scarcely have been chosen.

Eight o'clock was the hour appointed for the train to start, but as the crowd continued to pour into the station it was soon ascertained, so a little time was taken up in procuring additional cars. They were soon obtained, and about half-past eight the entire, consisting of ten first-class, two second-class, a hand car and three box cars, started away from the station and the happy freight of over fifteen hundred men, women and children, amidst the cheers of the crowd who witnessed its departure. Good time was made, and shortly before eleven the company arrived at its destination. The grove being only a few yards from the track, there was little difficulty in conveying the baskets to the ground, and as the committee had seen ahead to put up tables, erect fire-places, and arrange for the games and other amusements, it was only a few minutes afterwards before the sports of the day were commenced. An ample programme had been provided, which consisted of quiet pitching, racing by fat men and lean men, and other games, the single ladies, boys and girls, and jumping and other athletic games, together with a programme of dances, the whole of which had been neatly arranged and printed for the convenience of the spectators. Under the management of the committee these games were admirably carried out, and as the attendance was very large, the Committee were able to give liberal prizes.

The weather was everything that could be desired, a fresh breeze cooling the atmosphere, and the sun shining brightly in the sky. Just about the time for starting on the return a light rain commenced to fall, which laid the dust and made the ride home more enjoyable. The Oddfellows Band was present, and furnished excellent music; this band also supplied string music for those engaged in "tripping the light fantastic." It was one of the most enjoyable excursions and picnics ever held by the railway employees of Belleville, and much credit is due to the committee for the admirable manner in which the programme of the day was carried out.

### Police Court.

(Before A. Diamond P. M.)

Friday, July 26.

YAUHANY.

John Jackson was dismissed.

LAWRENCE.

Francis Rodd, charged with stealing a gold watch from William Windyatt, was remanded till to-morrow.

FRIGHTS.

John C. Brennan and William J. Gibson were charged with fighting on the streets. The case was laid over till to-morrow.

ASSAULT.

A charge of assault preferred by C. Dietz against Frank Kerr was laid over till Monday for evidence.

FAVORING WITHOUT LICENSE.

The charge against Frederick Wolfert was proceeded with and was further laid over till Monday.

### Seasonable Topics.

For the first time in fifty years the book-keeper has had to suspend operations on account of the weather.

Never do to-day what can be put off until to-morrow, is a good motto for hot weather.

As an instance of the utility of the Montreal Telegraph Company's new line from Montreal to Port Hope, we may state that news was received at Montreal on Friday of the incoming mail steamer five hours earlier than would have been possible before the construction of the line.

It is about as hard in these times for some people to collect their bills as it is for others to collect their wits, which is only another way of spelling bankruptcy.

And now the physicians say that holding up the long dress trains make ladies look chundered.

The summer every-day suit of a Madagascan gentleman costs only 10 cents, and 12 of these are laid out for a cane.

It is no use being fond of prodomine if the belief that all mankind are knaves, it would be very unreasonable to conclude that he is himself the only honest man in the world. Hold on to your pocketbook, and be careful not to let it slip into the completion.

He got up this morning feeling heavy at heart, without knowing the cause. He went to the back door and saw his garden, the pride of his waking hours and the subject of his dreams, looking like an empty box.

"He is at hand on the door-step and said: 'Of all the words of tongue or pen, the saddest are those: I keep a hen!'"

As flowers carry dew-drops, trembling on the edges of the petals, and ready to fall at the first wind of wind or breath of bird, so the heart should carry its load of heaven-sent favors, let down in showers, perfume with the heart's glory.

### FROM ST. JOHN, N.B.

#### The Hanlan-Ross Match.

#### THE WATER ROUGH.

RIVERMOUTH, N.B., July 26. 10:30 a.m.—The wind has been blowing strongly from the southwest all morning, and the water is very rough. The occasional rain showers and every appearance of a heavy storm comming. It is not likely that the race will take place to-day.

The mulls and fetters which shut down yesterday to allow their company to witness the race are at work, and the attendance at the regatta will not be nearly as large as yesterday.

Refraining continues at the same odds as last night.

### AMERICAN DISPATCHES.

CINCINNATI, O., July 26.—Andrew Cropper, driving a buggy yesterday struck James Doyle fatally with a club.

OMAHA, July 26.—Kearney, the California labor agitator, passed out yesterday in a second-class car. His male companion, however, was arrested as a vagrant.

DETROIT, July 26.—Tramway burned the barn and wheat stack of a prominent farmer near Battle Creek, and several well-known persons are reported injured near Burr Oak, in St. Joseph Co.

CHICAGO, July 26.—A vigorous bull movement in the wheat market yesterday raised prices five to six cents. The market is reported over sold here and in Milwaukee, but no material advance over yesterday's prices is expected.

POTTSVILLE, Pa., July 26.—The *Miner* journal announces a week's suspension of mining in Schuylkill region, beginning on Monday. It is reported the Knights of Labor threaten to strike unless their demands are complied with.

SAN FRANCISCO, July 26.—Confidence in the safety of the overland S. S. City of this city is greatly weakened.

VICKSBURG, Miss., July 26.—There is excitement here over two deaths by yellow fever.

NEW YORK, July 26.—The *Herald's* office, South Carolina, dispatch says that the facts concerning the implementation of the revenue officials do not warrant the excitement and discussion now progressing. Hampton has written to the President asking that the case may be allowed to take its regular course, and warning the President that he will heartily co-operate in enforcing the law.

NEW YORK, July 26.—Miss Louisa Brashers, of 37th Street, states that she was abducted from home on Tuesday evening, and deformed, driven to Brooklyn, and threatened with indecent assault, but upon promising to keep the abduction secret was driven home. A young man who has been seeking her acquaintance is suspected.

The American Foreign Anti-Slavery Society has called the attention of Evans to slavery in Cuba, and asks for a protest against it.

Arrived, the steamer *Algonquin* from London, and the *Rhoda* from Cardiff.

### AFTERNOON DISPATCHES.

ST. PETERSBURG, July 26.—The *Globe* says Russia is about to negotiate with Rottschilde a loan of 100,000,000 rubles at the rate of six per cent. The loan price is \$5. This statement is probably false or exaggerated.

LONDON, July 26.—A Vienna despatch says, that a Russian of Shamba was carried out on the 25th, in the order, the Russians entering the city and the houses of the Shamba family. Previous to the surrender the following convention was agreed to: The Turkish troops to leave the fortifications, taking their arms, guns and ammunition going to Varna.

The Turkish troops to be disarmed by the highway, places along which were occupied by Russians to be during the time of march evacuated to avoid possible collision. For the maintenance of order, the Turkish local police will remain in the fortifications, as an artillery corps to guard the guns. The occupation of fortifications by the Russians will be carried out as they are evacuated by the Turks. All artillery and war material will be the property of the Sultan. The Turkish officials will be replaced by Russian officials until arrangements are completed.

Konstantinople, July 26.—The Turkish officials will remain in the fortifications to superintend affairs. A committee of Ottoman staff officers will also be left to direct the transport of war material. The Russian military authorities came to protect the Mohammedan population.

A Constantinople despatch says the British embassy has received official reports of the continued wanton destruction of Mohammedan life and property in the Philippines district by Bulgarians and Russians. The latter are committed as are revolting that their publication must create the conviction that such a remedy is found the new condition of the country will be more deplorable than under Moslem domination.

A home correspondent states that the extreme radicals have clearly seized the opportunity of placing themselves at the head of popular feeling, and to their work is due a number of meetings which dropped up on all sides but the first burst of venation over, a rapid change has set in and a decline in the political temper is perceptible each day.

LONDON, July 26.—Arrived out, the *Abyssa* and *Canada* from New York.

BALTIMORE, July 26.—Thos. Kelly, a prominent citizen, died aged 93, yesterday. Among the benefactions was the gift of \$120,000 to the Methodist Orphan Asylum and a contribution of \$14,000 to the Metropolitan Church, Washington, which \$5,000 was given to General Grant's name.

WHITEHALL, N. Y., 26.—Charles Leach, while fishing in Lake Champlain last evening, was fatally shot by an unknown person. The cause of the shooting is not known, but it is supposed to have been committed to prevent fishing in that locality.

### AN UNDESIRABLE TRUTH.

You deserve to suffer, and if you lead a wicked, uncharitable life in this world, it is entirely your own fault and there is only one course for you—your own reformation and redemption, which has killed thousands. Personal knowledge of that (Green's) *Amazing Power* will cure you of Leech Complaint, or Dyspepsia, with all its terrible effects, such as such headache, indigestion, loss of appetite, nervous prostration, low spirits, &c. He has now spent every town on the Western Continent and has a fragment left will tell you of the wonderful cure. You can buy a sample bottle for 10 cents. They give you a sample.

### Commercial.

Advises from Chicago notify that barley is higher under a good inquiry, but there are no sellers. The reports are that the crop has been much injured by the wet weather, and there are less colored.

There is a falling off in the coal arrivals at present in Toronto. It is said to be owing to the late advance in the price of coal, which it is hoped to avoid by our dealers waiting a little.

THE CORN CROP.—The cotton crop of present year will be the largest since the war, and is estimated at 4,700,000 bales. In 1859, 700 the crop amounted to 4,861,000 bales; to 4,841,000 bales in the Maritime Provinces; 1874, 4,337,000 bales; 1875, 4,454,000 bales.

Wheat in Chicago this morning advanced 3/4c for August, selling at 12 1/2c, but operators were nervous at this figure and immediately ceased off to 12 1/4c. This continued rise in Western market is owing to the report forwarded to the crop by story, especially in the wheat-growing districts of Minnesota. Corn, oats, peas and barley are all realizing better prices than last week.

### WEATHER REPORTS.

TORONTO, July 26.—Probabilities for the next twenty-four hours: For the Lower Lake region, brisk to fresh easterly to northerly winds, and cloudy to rainy weather. ## Daily Intelligencer.

RELEVILLE, MONDAY, JULY 29.  
"An Unprincipled Organ."

The tortuous course of late pursued by the Montreal *Witness* upon the question of the Orangemen, is bringing down upon it the condemnation of every right thinking man in the country. We have repeatedly called attention to its vagaries, and are not surprised that it is receiving the attention of others. The *Nationist* of the 25th inst., a paper not at all friendly to Orangemen, under the heading of an "Unprincipled Organ," deals with the *Witness* in the following scathing manner:

"Where would Protestantism in Canada be but for the Orangemen? This is the legacy of many persons. It would be a much more reasonable legacy were the Orangemen of the *Witness* in Canada but for the dissent of Protestantism which is represented by Orangemen. We do not know of any other Protestantism which has ever been to Protestantism in Canada."

"It is not the coolest, coming from a paper that is not very long ago passed the last around among the Orangemen, begging for contributions to meet its expenses, and this on the hypocritical pretense that it was being persecuted for conscience sake. When this of Canadian Orangemen come to be reckoned, not the least among them will be the *Witness*, which lives on the worst passions of the community and which stands ready to stab the society which came to its assistance in the hour of need."

But for the subscriptions of the Orangemen, the *Witness* would have ceased to exist, and there is a postscript to this which should now be sung by the viper which it warmed in order that it might be able to assault Catholicism. We say nothing here as to the merits of Orangemen or as to the merits of the *Witness* or as to the merits of the *Witness* to attack the order, and yet that it should do so is not to be wondered at, in whole journalistic life it has had but one object and that to make money, and it has stood ready to attack Orangemen or Catholics, to bow the knee before the Host or sing the praises of the Orange lily just as either seemed the more likely to pay. It has been consistent in its being thoroughly and systematically unprincipled."

The Governor-General—Lord Dufferin arrived at Montreal on the 27th inst. and left for the west by train. He leaves Canada for England on the 29th September.

TRAFFIC RECORDS.—The traffic records of the Great Western Railway for the week ending July 19th were \$88,313.07, against \$72,500.00 for the corresponding week last year, being an increase of \$6,722.48.

DEPUTY JUDGE.—John Henry Dumble, of the Town of Colborne, in the Province of Ontario, and of Quebec City, has been appointed to be deputy judge of the County Court of the United Counties of Northumberland and Durham.

KENT.—The London Free Press says: "One does not hear quite so much of late concerning the coming victory of friend MacMahon, in Kent. It is said that there have been inconspicuous disclosures of them which have struck the candidate 'between wind and water,' wherever that may be. At any rate, the 'or-reignition' device does not pan out as had been expected. Mr. Stephenson has been a very successful man, and he will have his reward."

210,000 DEFENCE FUND.—A Montreal dispatch says: "It is stated that the Orangemen, having communicated with their brethren in Ireland in regard to the question of the legality of the Order in Quebec, and the introduction into the Courts, a cable message was received from Mr. W. J. Johnston, from Belfast, stating that if the case was carried before the Privy Council of England the Association in Ireland would guarantee £100,000 in supporting their legal defence."

DOMINION EXPORTS AND IMPORTS.—The value of goods imported into the Dominion (exclusive of British Columbia) for the month ending 30th June, 1878, was \$6,039,666. Of this \$4,022,061 was for dutiable goods and \$2,017,605 undutiable. The duty collected amounted to \$962,736.03. The following is a statement of the goods exported from the Dominion (exclusive of British Columbia) during the month ending 30th June, 1878:—Produce of the mine, \$125,450; produce of the fisheries, \$688,017; produce of the Dominion, \$31,303,357; animals and their produce, \$1,435,496; agricultural products, \$1,435,496; manufactures, \$245,303; ships sold for manufacture, \$481,901; miscellaneous articles, \$22,322. Total produce of Canada, \$8,312,688.

COIN AND BULLION, \$33,622; produce of the Dominion, \$701,991. Grand total, \$8,068,081.

PERCE EDWARD ILLIEN.—The Prince Edward Island, an independent journal, referring to the meeting held recently in Charlottetown to select candidates in the Opposition interest, thus refers to the prospects of the party: "A statement of opinion was expressed by nearly every delegate present that Mr. Pope's election, 'as was certain, by a sweeping majority,' 'as anything in the future can be,' 'that with a little exertion, Mr. Brecken' would be also a very triumphant result.' A series of resolutions were also passed at this meeting, which we publish elsewhere. This Convention was unquestionably the 'largest and most influential ever held in this country for a similar object.' Our information from all parts of the island is to the same effect. Frequent intimations are that the six members for the island in the next Parliament will be supporters of Sir John A. Macdonald."

## News Condensed.

—Rochester has been condemned to be shot.  
—Another famine is feared in Madras owing to the ravages of locusts.  
—The strikes in the French mining districts show signs of coming to a close.  
—A sale of 800 tons of phosphates has been effected in England at £23 a ton.  
—The counterattacks at Orleans have not been arrested.  
—Professor Huxley attributes the outbreak of diphtheria in London to defective drainage.

Three Sundays in succession, ending with June 30th, London was visited by terrific thunderstorms.  
Gen. Garibaldi has written a letter warmly approving of the annexation demonstration.

An outrage on a number of Jews, who were shockingly beaten by a mob, is reported from Bucharest.  
The recent losses have so swelled the Mississippi river as to cause a temporary suspension of railway traffic.

The Pan-Anglo-Spanish canal on Saturday, and on Sunday, a *De Tejon* farwell service was held at St. Paul's Cathedral.  
—The *Mel* has a person in London daily, which is a new and additionally attractive feature of that well arranged journal.

—Ship *Ramona*, which arrived at Quebec on the 26th, brings a quantity of powder and warlike materials for the Western military depots.  
—The total amount of the appropriation for the exhibition buildings in Toronto was \$100,000. The buildings are rapidly going up.

—Farmers around Quebec have large quantities of hay lying on the ground, and the late rains at present continuing are destroying it.

There has been severe fighting in the Transvaal lately, during which the British troops sustained comparatively heavy losses.

—Work on the entrenchments in the Constantinople lines is discontinued, all the probabilities of conflict with the Russians having disappeared.

—The Russians have occupied the principal positions around Shumla. The troops about Constantinople will withdraw as soon as Varna is surrounded.

—A respectable farmer named Geo. Nichols, of the Township of Markham, living four miles from Richmond Hill, Ont., committed suicide on the 25th inst., by cutting his throat.  
—The Porte is about to issue a memorandum relative to the Greek question, and Greece has applied to Prince Rismarck, as President of the Berlin Congress, to make representations to induce Turkey to comply with its threat.

—Both the Porte and Mr. Layard, British Ambassador at Constantinople, deny the report that negotiations are pending for the sale of the island of Cyprus to the Sultan of the Ottoman Empire.  
The *Globe's* special correspondent in London, Eng., announces that arrangements have been made between the Great Western and Canada Southern Railway companies for the sale of the entire competitive traffic of the two lines.

—Rev. Arthur Tooth, the English Church Ritualistic clergyman, who caused such sensation in London, and who has been deposed of the British Church performance, has arrived in New York.  
—Principal Grant has arrived home after several weeks' absence. He reports that the Endowment and Building Fund of Queen's University at Kingston, which reached \$100,000, which must be considered a great success.

—Dr. R. B. Morgan, of Ottawa, shipped a motor of 1,004 horse power Grand Trunk Railway for London, England. Messrs. J.T. and W. What, shrewdly sold of cattle brought away for the States for the same market. Four horses also were taken over by Mr. Morgan.

—The Kingston News says:—The storm of Sunday night laid a considerable deal of damage on the north side of Ant. East Island. The rain was accompanied by a violent hail storm, which broke a large quantity of glass in the houses of farmers in that neighborhood. A barn was struck by lightning and destroyed. Other minor casualties were reported.

It was now stated that Austria had abandoned the idea of a convention with Turkey, but had decided that her troops should be sent to Bosnia and Herzegovina. The Russian Empire was expected despite the re-assuring tones of a proclamation addressed to the people of the country.

—Gen. Sir is becoming alarmed over the near approach of his children. In Mad. George, in the Dom-Gymnasium cathedral school, Dr. Nisnam has just examined the eyes of 650 pupils, and in the Kloster Pedagogium the eyes of 776; he found that about 60 per cent. were myopic. Other regulations relative to seating and lighting are being enforced. It is time other countries, including our own, were awakening to a sense of their danger from the above source.

An Arkansas shogun is sometimes more merciful than an Arkansas horse. The other day a rufian, deemed his long-time red-ridden horse an incubator, undertook to shoot him, but the reason refused to explode. Then seizing it by the muzzle he struck it on the head with a brick bat, and the contents of both barrels were lodged in its brain.

The Australian miners take their wives along and settle down on their claims, and consequently there are fewer rough specimens of humanity to be found in California than there are to be seen in the Californian mines. Some men make a fortune in a week, and others have been working for years, with scarce a second suit to their back. One man had been at it ten years and was not worth six cents. He sold his claim for \$75 and the man who bought it, after a week's work, struck gold and made a thousand dollars.

AN IMPORTANT INVENTION.—An exchange says: Prof. Barff, an Englishman, has discovered a process whereby iron can be protected from all atmospheric influences. He has been offered £250,000 for his patent but refused it.

AMATEURS OF ORANGEMEN.—Every day assaults are committed in Montreal on Orangemen, by individuals lying round for them. On Wednesday last a volunteer returned from ball practice at Point St. Charles, was stopped by ruffians, who attempted to take his rifle away, and warned him not to show himself in that locality again.

## Jottings by a Bellevillian.

WASHINGTON, D. C., July 29, 1878.  
"Oh, the U. S. Marine, you'll read."  
"Thank you, good-bye."  
This was the salutation I got from a friend in Kingston, as I was going on board the steamer *Montreal* on the afternoon of the 13th inst. A strong row of water saluted me as we emerged from the dock on Garden Island and headed on to the river to Cape Vincent, where a lightship, expressed ready to convey us to Albany. The country between these points is very much like our own, the harbor if anything a little larger, and from appearances seems to have had little real up until arrival at Rome. I noticed that myself and my companion, I invested \$1.75 in a magnificent overcoat, full of pockets, seams, and hands, double-breasted, and two rows of buttons that were the capacity of the coat, or the dromedary of the material, I don't know, but it was good for every station thereunder, and on arriving at Utica, where they put it up to ten cents, I thought my purchase was a good one. Little else I had a small of cheese and butter and some other things, and a pair of shoes. The details are made by the way, but the house of the hotel if they would only whatever then they would look me. Albany is a handsome town at a glance. It is a new and delightfully different place. "What will you have?" said I, addressing a waiter at the hotel, "thank you, a chicken," "Name, if you please," he replied, turning to the waiter, and young as I am, I turned to him, "Name please," not knowing what on each a chicken was, my anxiety was soon relieved for two immense chickens about five feet high and each holding two gallons appeared. I was satisfied that I would never see the person of that chicken before. I put it in my pocket and went to the floor and asked my third over the waiter, on looking over to my friend I found him gone and his chair empty. I was left alone. "Oh, what a pity!" I said to myself. "If you want to see the harbor at the end of the yard you can see it through my eyes," he said, and down all the line. Here they are building a Capital to old Washington. I was informed that it had already cost \$100,000, or rather that the contractors had drawn that and would require about ten more. It will, however, be a magnificent structure and stand the test of time.

Any of your readers who have travelled down the Hudson in one of those truly royal steamboats know the luxury of a shave and shampoo in the barber's shop at the dock. I had one of the latter, and as we passed the dock, I had a fine view of the city, crowded with the people. I think this is the prettiest view of the city. The harbor is a great beauty. # CHANCERY SALE.

OF VALUABLE  
CITY PROPERTY.  
IN CHANCERY.  
RE NELSON.  
WORKMAN & WILKINS.

In pursuance of a Decree made in the above cause, and dated the 19th day of June, 1878, there will be sold by

**PUBLIC AUCTION,**  
with the assistance of Samuel Nelson, Esq., Master of the Court at Belleville, at the City of Belleville, on

**Saturday, the Third Day of August next,**  
at the hour of twelve o'clock, noon, in three parcels, the following valuable real estate:

**PARCEL I.**  
Lot No. 38, on the west side of Front Street, in the City of Belleville, containing the new Town plan registered in the Registry office for the County of Hastings.

**PARCEL II.**  
Lot 14, on the east side of John Street in Belleville, containing said plan.

**PARCEL III.**  
The estate and interest of the late George Nelson, deceased, in the following lands in the County of Hastings:—The east half of lot number 25, in the seventh concession, east lot number 16 in the sixth concession of the Township of Morris, and lots 16 and 17 in the second concession of the Township of Morris.

Parcel I is the three-story block of brick buildings on the west side of Front Street, Belleville, known as the NELSON BLOCK, and comprising about 100,000 feet of land, with a frontage on Front Street of 100 feet, and a depth of 100 feet. The property is in a most desirable position, being in the heart of the City.

Parcel II is the HOMERIDGE PREMISES of the late George Nelson. The premises consist of a quarter of an acre, more or less, on the east side of John Street, on which are the following two-story frame dwelling houses, with barn, stable, and other outbuildings, in good repair. The property is in a most desirable position, being in the heart of the City.

Parcel III is the estate and interest of the late George Nelson, deceased, in the following lands in the County of Hastings:—The east half of lot number 25, in the seventh concession, east lot number 16 in the sixth concession of the Township of Morris, and lots 16 and 17 in the second concession of the Township of Morris.

The purchaser shall at the time of sale pay a deposit of ten per cent. of the purchase money, and shall pay the balance of his purchase money within one month of the date of sale. In other respects, the conditions of sale are the standing conditions of the Court of Chancery.

For further particulars, apply at the Law Office of Messrs. Bell, Hadden & Anderson, 11, D. Street, at Belleville, and at Belleville, Oak & Moss, Toronto, and at Belleville, 6th July, 1878.

CHAPTER IX. FATHER AND SON. John took possession of Willington as if the boy belonged to him.

"Come with me," he said; "I will take you to my hotel, where we can work, and where your sister can come to see you."

"Who are you?" asked Will, rather frightened at the exhibition of strength.

"I don't know," said John, doubtfully, "what a kind of self-protection, but I have had about you. You may be, because your sister is fond of you; though you say John is a friend of that fellow."

He got the boy outside the house at last. A Frenchman was gone back to the British Museum, where he was writing a manuscript London letter to his editor.

"I don't know," said John, doubtfully, "what a kind of self-protection, but I have had about you. You may be, because your sister is fond of you; though you say John is a friend of that fellow."

"Not that he is innocent?" "Yes, that he is innocent. Your brother's innocence is proved, the lost money is found, the girl is safe, the man is innocent; we have discovered him; and at this very moment—at least I think so—Langton has been proved a thief or embezzler."

"Oh, my poor Will! my dear Will! But I do not understand. Mr. Ashton, are you quite sure—quite, quite sure?"

"Oh, my poor Will! my dear Will! But I do not understand. Mr. Ashton, are you quite sure—quite, quite sure?"

with no one to speak to. It is dreadful. Let me see you. To Arcadia. Mr. Ashton."

"My name is John," he replied. "I am only a farmer; only a man who farms a hundred acres of land, and who can do it."

"My dear," he went on, "let me say what is in my heart. I love you as much as I am afraid to say. Come with me and be my wife."

"Why can't it be?" "Because—because—the buried face in his hands and burst into tears."

"Disgraced! But I told you he was innocent!" "That is not it. Our father—I told you we had a great sorrow—he was found in a field, and he had committed suicide."

"No one would do anything for us except Mr. Pomeroy. Stern, as he is, he has not very much, because he has kept both Will and me from the workhouse."

"But that is not disgrace, my dear, Oh, Lettie, it is not you who did this," "I told you father. What do care, what would say one other word, even if they knew, why they do not. Come to me, my dear. Come out with me and be my wife."

"Oh, I dare not," she murmured. "You ask me to give you my name?" "No, no; it is not that. I do not; you know, I say, you with all my heart."

"No, no; it is not that. I do not; you know, I say, you with all my heart."

month prior to date of opening, August 1, and the necessary forms and all information respecting the Exhibition may be obtained of John Johnston, Secretary, 222 George street, Sydney, New South Wales, or of the Commissioner for New South Wales, Paris, Exports, 101 July 17, 1878. The Exhibition is for one month, and affords a grand opportunity for the manufacturers to cultivate with the antiquarians. We hope to see Belleville represented in the exhibition in question.

**A HANDSOME DIVIDEND.**—It will be seen by advertisement that the Hastings Loan and Investment Society have declared a dividend of four per cent. on the capital, half year ending July 1st, 1878. Considering that this Company has been only about two years and a half in existence, this is a very handsome dividend, and shows that the Company is under very prudent management.

**THE HOBBS' SCOTT CASE.**—A despatch from Napier says: "Mr. W. C. Scott, editor and publisher of the Napier Express newspaper, who is charged with printing in his office an election address with the name of Edward Hooper signed in it, is to-day committed to goal to stand his trial at the next Assizes. The examination has been in progress for about a month before a Bench of Magistrates, and after a number of adjournments, they decided on making out the commitment."

**UNION PICNIC.**—The union picnic of the Congregational and Baptist Sunday Schools took place yesterday at Manassas Point. Having arrived on the grounds and the party being thoroughly refreshed by the dainties brought with them, the games and amusements were entered into with great energy and thoroughly appreciated by all. Great credit is due to Mr. and Mrs. Prety for the able manner in which they supplied all the wants of those present, and also for the accommodations they have secured for the convenience of the picnic. The party returned by the steamer *Prince Edward*, well pleased with the pleasant day they had enjoyed.

**CHERRY.**—The match between the Belleville and Drighon Clubs was commenced shortly before 11 o'clock to-day. Brighton presented a strong team, which was composed of players resident in other villages besides that from which the Club derives its name, whilst the Belleville team was not fully representative of the Club's strength, some of the best players being conspicuous by their absence. The home team went first to the bat and ran up a score of 66 runs, several of the batsmen being very unfortunate, whilst the ground was slow and the fielding sharp. Rain fell in light showers at intervals, but only once was play suspended on that account, and that near the close of the first innings of Belleville. Brighton scored 35 in their first innings, Belleville following with 60 in their second assay, leaving their opponents 22 to get to win. This they did not seem likely to do, as at 3:30 they had five wickets down for 28 runs.

**THE MARKET.**—This morning's attendance on the market was large, considering that the weather was threatening in appearance. Seasonable vegetables in the market in considerable quantities, and generally speaking the family market was well supplied. But little grain has been received as yet, and prices are low, in sympathy with the American market.

**THE FRIEND OF TEMPERANCE AND SOBRIETY.**  
SANDFORD'S JAMAICA GINGER.

**ANNUAL CHURCH.**—Several of the yachts belonging to the Club fleet will start on their annual cruise on Monday next. They will cross the lake and visit several of the south shore ports in company, after which they will disband at Charlotte, some going around the lake and others to Brockville regatta, which is to take place on the 15th. This is the programme in brief. The details will be arranged at a meeting of the crew, to be held to-morrow night.

**ADVERTISER.**—The steamer *Hudson* got aground this morning on the west bank of Faint's channel. It is stated that one of her redoubt cables parted when backing out around the head of the island, and the wind being strong from the south-east the boat was drifted to the locality indicated. A long time elapsed before a tug appeared, and a great deal of exertion was required and much time was consumed before her boat was got clear and despatched on her journey to Kingston.

**THE DELIVER.**—There can be no doubt that an eclipse of the sun (partial in this latitude) took place yesterday, initiated by the moon's shadow of faith to believe, as the sun was not visible during the afternoon. Heavy clouds veiled the face of the "god of day" from those who would fain have gazed upon it through telescopes and smoked glass. The disappointment was great, but then the weather is always uncertain about the time of eclipses, with the sight of which it is no uncommon thing for clouds to interfere.

**ADVENTURE BOAT VOYAGERS.**—A small open boat called the *Lily*—an ordinary row boat about 21 feet long, fitted with a cutter board and carrying the small sails—arrived at Belleville yesterday in this cockle-shell of a craft's party of three, consisting of two young men and an elderly man, apparently a navigator of some experience, had made the voyage from Toronto, coasting the lake and running on the bay. The voyage down appears to have been uneventful for the voyagers, however, as they shipped their little craft on the train and went westward. The undertaking was a venture, and we cannot but be gratified to see any of our aquatically disposed readers to follow the example of the Torontoites by attempting any similar expedition.

**THE SYDNEY EXHIBITION.**—Correspondence appears in the *Canadian Gazette* giving notice of the holding, under the supervision of the Agricultural Society New South Wales, an International Exhibition in Sydney, Australia, in August, 1879. All goods forwarded for exhibition and addressed to the Secretary for that special purpose, will be admitted free of duty or other charges. To the Agricultural Department. The prizes will be awarded as well as printed certificates; in the Non-Agricultural Section, silver and bronze medals, also certificates of commendation. All exhibits must remain until the first closing. Applications for space to be made at least one

month prior to date of opening, August 1, and the necessary forms and all information respecting the Exhibition may be obtained of John Johnston, Secretary, 222 George street, Sydney, New South Wales, or of the Commissioner for New South Wales, Paris, Exports, 101 July 17, 1878. The Exhibition is for one month, and affords a grand opportunity for the manufacturers to cultivate with the antiquarians. We hope to see Belleville represented in the exhibition in question.

**A HANDSOME DIVIDEND.**—It will be seen by advertisement that the Hastings Loan and Investment Society have declared a dividend of four per cent. on the capital, half year ending July 1st, 1878. Considering that this Company has been only about two years and a half in existence, this is a very handsome dividend, and shows that the Company is under very prudent management.

**THE HOBBS' SCOTT CASE.**—A despatch from Napier says: "Mr. W. C. Scott, editor and publisher of the Napier Express newspaper, who is charged with printing in his office an election address with the name of Edward Hooper signed in it, is to-day committed to goal to stand his trial at the next Assizes. The examination has been in progress for about a month before a Bench of Magistrates, and after a number of adjournments, they decided on making out the commitment."

**UNION PICNIC.**—The union picnic of the Congregational and Baptist Sunday Schools took place yesterday at Manassas Point. Having arrived on the grounds and the party being thoroughly refreshed by the dainties brought with them, the games and amusements were entered into with great energy and thoroughly appreciated by all. Great credit is due to Mr. and Mrs. Prety for the able manner in which they supplied all the wants of those present, and also for the accommodations they have secured for the convenience of the picnic. The party returned by the steamer *Prince Edward*, well pleased with the pleasant day they had enjoyed.

**CHERRY.**—The match between the Belleville and Drighon Clubs was commenced shortly before 11 o'clock to-day. Brighton presented a strong team, which was composed of players resident in other villages besides that from which the Club derives its name, whilst the Belleville team was not fully representative of the Club's strength, some of the best players being conspicuous by their absence. The home team went first to the bat and ran up a score of 66 runs, several of the batsmen being very unfortunate, whilst the ground was slow and the fielding sharp. Rain fell in light showers at intervals, but only once was play suspended on that account, and that near the close of the first innings of Belleville. Brighton scored 35 in their first innings, Belleville following with 60 in their second assay, leaving their opponents 22 to get to win. This they did not seem likely to do, as at 3:30 they had five wickets down for 28 runs.

**THE MARKET.**—This morning's attendance on the market was large, considering that the weather was threatening in appearance. Seasonable vegetables in the market in considerable quantities, and generally speaking the family market was well supplied. But little grain has been received as yet, and prices are low, in sympathy with the American market.

**THE FRIEND OF TEMPERANCE AND SOBRIETY.**  
SANDFORD'S JAMAICA GINGER.

**ANNUAL CHURCH.**—Several of the yachts belonging to the Club fleet will start on their annual cruise on Monday next. They will cross the lake and visit several of the south shore ports in company, after which they will disband at Charlotte, some going around the lake and others to Brockville regatta, which is to take place on the 15th. This is the programme in brief. The details will be arranged at a meeting of the crew, to be held to-morrow night.

**ADVERTISER.**—The steamer *Hudson* got aground this morning on the west bank of Faint's channel. It is stated that one of her redoubt cables parted when backing out around the head of the island, and the wind being strong from the south-east the boat was drifted to the locality indicated. A long time elapsed before a tug appeared, and a great deal of exertion was required and much time was consumed before her boat was got clear and despatched on her journey to Kingston.

**THE DELIVER.**—There can be no doubt that an eclipse of the sun (partial in this latitude) took place yesterday, initiated by the moon's shadow of faith to believe, as the sun was not visible during the afternoon. Heavy clouds veiled the face of the "god of day" from those who would fain have gazed upon it through telescopes and smoked glass. The disappointment was great, but then the weather is always uncertain about the time of eclipses, with the sight of which it is no uncommon thing for clouds to interfere.

**ADVENTURE BOAT VOYAGERS.**—A small open boat called the *Lily*—an ordinary row boat about 21 feet long, fitted with a cutter board and carrying the small sails—arrived at Belleville yesterday in this cockle-shell of a craft's party of three, consisting of two young men and an elderly man, apparently a navigator of some experience, had made the voyage from Toronto, coasting the lake and running on the bay. The voyage down appears to have been uneventful for the voyagers, however, as they shipped their little craft on the train and went westward. The undertaking was a venture, and we cannot but be gratified to see any of our aquatically disposed readers to follow the example of the Torontoites by attempting any similar expedition.

**THE SYDNEY EXHIBITION.**—Correspondence appears in the *Canadian Gazette* giving notice of the holding, under the supervision of the Agricultural Society New South Wales, an International Exhibition in Sydney, Australia, in August, 1879. All goods forwarded for exhibition and addressed to the Secretary for that special purpose, will be admitted free of duty or other charges. To the Agricultural Department. The prizes will be awarded as well as printed certificates; in the Non-Agricultural Section, silver and bronze medals, also certificates of commendation. All exhibits must remain until the first closing. Applications for space to be made at least one

## FROM ST. JOHN N. H.

## The Ross Hanlan Boat Race.

St. John, N. H., July 30.—Between 7 and 8 o'clock this morning the water on the Kennebec River was in perfect condition, but unfortunately the articles of agreement did not allow the race to come off. Both sides were ready to start, but the water was a little higher. Should the race not come off this afternoon there is every likelihood that it will be arranged for to-morrow morning. There is no truth in the report that Hanlan was to change his quarters.

RIVERSIDE, N. H., July 30.—non—There is a light breeze from the north-west, and just a little ripple on the river. There is some hope of the race to-day.

LATER.  
RIVERSIDE, 3:15.—The wind is fresh, and quite a ripple on the water. No immediate prospects of the race.

## FROM MONTREAL.

## THE ORANGE PROSECUTION.

## A Test Case to be Made.

MONTREAL, July 30.—The Orange prosecutions have been this afternoon adjourned to the 31st inst., with the view of getting up a test case for the English Privy Council. This was an arrangement between Canon on both sides.

## AMERICAN DISPATCHES.

CHICAGO, July 30.—Gen. Cook says not over 120 Hancock and Spoonhills are on the war path. The cause of trouble is the want of supplies. Cook believes that a practical honesty as well as a provision of religion, must enter into dealings between the Government and the Indians.

BUTTEVILLE, Pa., July 30.—A riot occurred during the night on Sunday, in which two men were killed and a number wounded. CHARLOTTE, N. C., July 30.—George Hook, resident near Morgantown, was found dead on the railroad track on Sunday. It is believed he was murdered, and his body placed upon the track.

NEW YORK, July 30.—The Herald's Rawlin, Wyoming, special states, that during the winter, the Editor's Taximeter was adjusted ten times too sensitively, he never having used it before for a similar purpose; the beat from the cross hairs the ray of light entering the scale, and before he could make a second test, the eclipse had passed. The experiment demonstrated that compared to some of the first stars, the corona's heat was much greater.

WASHINGTON, July 30.—The President stated yesterday that the question affecting improved revenue offerings was to be decided by the United States Courts, and their decision will be rigidly enforced at all hazards.

## AFTERNOON DISPATCHES.

LONDON, July 30.—The debate in the Commons last night, described as dull and spiritless. It was adjourned at an early hour. Some have even expressed hope that the debate would be concluded to-night, but it is generally expected to close on Thursday morning.</

# CHANCERY SALE.

OF VALUABLE CITY PROPERTY. IN CHANCERY.

RE NELSON, WORKMAN V. WILKINS.

In pursuance of a Decree made in the above cause, and dated the 10th day of June, 1878, there will be sold by PUBLIC AUCTION, the application of Samuel Shaw, Lessee, Esquire, Master of the County of Belleville, at his Chambers, Ship Hall, Church Street, in the City of Belleville, on Saturday, the 31st day of August, next, at the hour of twelve o'clock, noon, in three parcels, the following valuable real estate:

**PARCEL I.**  
Lot No. 28, on the west side of Front Street, in the City of Belleville, according to said plan.

**PARCEL II.**  
Lot No. 14, on the east side of John Street, in the City of Belleville, according to said plan.

**PARCEL III.**  
The estate and interest of the late George Nelson, deceased, in the following lands in the County of Hastings:—The east half of Lot number 26, in the 1st concession, containing 100 acres, and situate in the 1st concession of the Township of Marston, and Lot 28, in the 2nd concession of the Township of Marston.

Parcel I is the west half of brick building on the lot of the late Nelson Block, comprising three first-class stores on the ground floor, and two second-class stores on the second and third stories. Excellent stone structure, and in good repair. The property is in a most desirable position, and is one of the most valuable business situations in Belleville, being in the heart of the city.

Parcel II is the HOMESTEAD PREMISES, consisting of an acre of land or less, on the east side of John Street, on which are a comfortable two-story frame dwelling house, with barn, stable, and other outbuildings, in good repair. The property is in a most desirable position, and is one of the most valuable business situations in Belleville, being in the heart of the city.

The purchaser shall pay at the time of sale a deposit of ten per cent. of the purchase money, and shall pay the balance of the purchase money within one month thereafter.

In other respects, the conditions of sale are the standing conditions of the Court of Chancery.

For further particulars, apply at the Law Office of Messrs. Bell, Bell and D. R. Hargreaves, Belleville, and Toronto, Ontario.

Excellent stone structure, and in good repair. The property is in a most desirable position, and is one of the most valuable business situations in Belleville, being in the heart of the city.

Parcel II is the HOMESTEAD PREMISES, consisting of an acre of land or less, on the east side of John Street, on which are a comfortable two-story frame dwelling house, with barn, stable, and other outbuildings, in good repair. The property is in a most desirable position, and is one of the most valuable business situations in Belleville, being in the heart of the city.

The purchaser shall pay at the time of sale a deposit of ten per cent. of the purchase money, and shall pay the balance of the purchase money within one month thereafter.

In other respects, the conditions of sale are the standing conditions of the Court of Chancery.

For further particulars, apply at the Law Office of Messrs. Bell, Bell and D. R. Hargreaves, Belleville, and Toronto, Ontario.
